Normal echocardiography hands on & minimal abnormalities will be shown to training doctors

basic points on colour & doppler will also be taught

Our Objectives;

We have scheduled the course in such a way that doctors get theory & practical knowledge of what they desire to learn

We want to fulfill the Dream of busy practitioners, who wish to learn adult echocardiography, & unfortunately could not pursue due to time constraints.

this 1 day conference is unimaginable, unbelievable, but fortunate, that our Medico Dental academy has come out with a one stop solution for echocardiogram challenges in 1 day through conference

ADVANTAGES OF THE CONFERENCE

- 1.Any emergencies can be handled instead of waiting for a cardiologist/radiologist to come and give the diagnosis**
- 2.Equipping ourselves with one new field is something great ,especially in a medical profession**
- 3.It has lots of societal benefits too -service to humanity**
- 4.Right from day one after attending this workshop, we affirm that one can do adult echocardiography with confidence at your place.**
